

3-AXIS ELECTROMAGNETIC FIELD STRENGTH METER

Reference : MSRCHMP

Technical characteristics:

- Measurement from 50 MHz to 3.5 GHz without hole
- Great dynamics of measurement
- 3-axis sensor
- Units: mV / m, V / m, A / m, mA / m, W / m², mW / cm², W / cm²
- Instant, average and maximum value
- Memory of 200 measurements
- "Alarm" function with adjustable threshold and buzzer
- Automatic shutdown
- Standalone device (9V battery powered type 6F22 not included)
- Dimensions: 60 x 60 x 195 mm
- Mass: 200 g
