

7 DECADES INDUCTANCE BOX

Reference : DECIND7

White metal box connected to a ground, with 7 rotary switches with 10 positions.
The connections are made on Ø4 mm safety banana sockets.

Technical characteristics:

Decades range: from 1 μ H to 1H

Precision: 5%

Intensity: from 40mA to 350mA

Max inductance: 11.11111 Henry

Max. Voltage: 50V

6 rubber feet

Dimensions: 500 x 82 x 78 mm

Mass: 1.6 kg
