

ADJUSTABLE VOLUME DOSYPROOF DISPENSER

References : DOSY10, DOSY25, DOSY5

Adjustable volume dispenser, very precise, autoclavable at 121° C. Very practical thanks to its 360 ° rotating dispensing nozzle. This dispenser is very easy to clean, it comes with 5 fittings for different neck diameters of vials (25, 28, 32, 38 and 40 mm). Its manufacturing materials (PFA, FEP, PP and PTFE) give it a very good resistance to chemicals, which guarantees its shelf life without the bottle.

NB: Check the resistance to the products you wish to handle.
