

ARCHIMEDE PRINCIPLE KIT

Reference : ARCHI2

This complete kit has been specially designed for guaranteed and lower cost study of thrust.

Composition:

- 1 glass overflow can 250 mL
- 1 x 10 mL plastic beaker
- 1 load cell dynamometer of 1 N
- 1 load cell dynamometer of 2.5 N
- 2 full cylindrical volumes with hook of different masses
- 1 hollow cylindrical volume with hook
- 1 geometric shape with hook
- 1 stand with hanging hook
