

# AUTOUISEUR POUR STÉRILISATION

Reference : COSTER

## Pressure cooker for sterilization

Sterilise your equipment ... simply!

The aluminium bottom ensures homogeneous heat with optimal diffusion, on all heat sources including induction.

Opening and closing is done by simply rotating the lid.

Optimum safety! The pressure cooker is equipped with 4 safety devices: one for opening, one for closing and two for overpressure.

The bowl is dishwasher safe for easier cleaning.

Useful volume: 8L

Comes with a basket.
