

CELLULOSE SHEETS ON ALUMINIUM OR POLYESTER

References : 40075, 40073, 40074, 40076

Aluminium:

Same characteristics as silica aluminium sheets except that cellulose sheets can separate polar substances.

Polyester:

Sheets combining the advantages of the 2 constituents: good resistance to solvents, temperature and amino acids.

Reference	UV Indicator	Size	Holder
40073	254 nm	50 x 200 mm	Aluminium
40074	Non	40 x 80 mm	Aluminium
40075	254 nm	50 x 200 mm	Polyester
40076	Non	40 x 80 mm	Polyester
