

CHAUVIN ARNOUX DIGITAL CONDUCTIVITY METER

Reference : CA10141

Conductivity / TDS / Resistivity / Salinity / Temperature
Robust and 100% waterproof device
Extra large LCD screen

Technical characteristics :

- Conductivity measurement, TDS, resistivity, salinity and temperature
- Conductivity range: 0.050 $\mu\text{S} / \text{cm}$ - 500.0 mS / cm
- Robust and waterproof (IP67)
- Extra-large multi-display LCD backlit display
- storage of over 100,000 measurements (PC software included)
- Signal stability indicator
- Automatic calibration
- Micro-USB connector for easy transfer of data to a computer
- Power supply: 4 AA batteries

- Dimensions / Mass: 211 x 127 x 54 mm (with sheath) / 600 g
- Unit comes in a case with conductivity probe with built-in temperature sensor, 4 batteries, 1 protective sheath, 1 standard solution, 1 USB cable, 1 strap and a start-up guide
