

CHAUVIN ARNOUX DIGITAL PH METER

Reference : CA10101

Ergonomic, robust and waterproof
Extra large LCD screen
Technical characteristics:

- pH measurement: -2.00 to 16 pH
- mV measurement: \pm 1999 mV in three calibres
- Automatic temperature compensation
- Robust and waterproof (IP67)
- Extra-large multi-display LCD backlit display
- Memorisation of more than 100,000 measurements (PC software included)
- Signal stability indicator
- Guided and ultra simplified pH calibration (up to 3 buffer solutions)
- Micro-USB connector for easy transfer of data to a computer
- Power Supply: 4 AA batteries

- Dimensions / Mass: 211 x 127 x 54 mm (with sheath) / 600 g
- Unit comes in a case with pH electrode combined with built-in temperature sensor, 4 batteries, 1 protective sheath, 2 standard solution, 1 USB cable, 1 strap and a start-up guide
