

COMPLETE OPTICAL MAGNETIC KIT

References : KITOPTMAG1, KITOPTMAG2, KITOPTMAG3

Kit comprising a set of 14 magnetic components (convergent, divergent, semicircular lenses, mirror, prisms, parallel-sided plate) as well as 7 writeable posters making it possible to carry out numerous geometrical optics experiments.

Writeable posters (250 x 350 mm): Human eye, camera, optical disk, grid, Galileo telescope, Kepler telescope, Newton telescope

A blue erasable marker and 4 magnets are included in this kit.

The set comes in a protective and storage case.

The kit is available in 3 versions:

- Kit only

- Kit delivered with a laser 1, 3 or 5 red beams (available retail under ref P / LASMULT2)-

Kit delivered with a laser 1, 3 or 5 red and green beams (available retail under ref P / LASMULT3)

The kit is to be completed with a magnetic panel of 450x600 or 600x900 mm

Kit delivered with laser 1, 3 or 5 red and green beams

Réf : KITOPTMAG3

Kit delivered with laser 1, 3 or 5 red beams

Réf : KITOPTMAG2

Kit only

Réf : KITOPTMAG1
