

DIGITAL SOUND LEVEL METER

Reference : SONOMET

Analog output (10 mV / dB) on Ø 3.5 mm jack for analysing the results on a data logging interface
This digital display sound meter offers 2 measurement modes: dBA or dBC

Technical characteristics:

- 2 measurement ranges: 30 to 130 dBA and 35 to 130 dBC
- Precision: ± 1.5 dB
- Frequency range: 31.5 Hz to 8.5 kHz
- Response time selection: fast or slow
- Display: 4 digits
- Measurement frequency: 2 Hz
- Memorisation of the maximum measured value
- Battery level indicator
- Delivered with microphone cover and storage case
- Power supply: 4 AA batteries
- Dimensions / Mass: 256 x 70 x 35 mm / 308 g

Reference	SONOMET
Measurement range	30 to 130 dBA et 35 to 130 dBC
Precision	± 1,5 dB
Frequency range	31,5 Hz to 8,5 kHz
Measurement frequency	2 Hz
Response time	Fast or slow
Display	4 digits with backlight
Analog output	10 mV/dB jack socket Ø 3,5 mm
Power supply	4 x AA batteries
Dimensions	256 x 70 x 35 mm
Mass	308 g
