DISPENSER FOR AQUARIUM

Reference : DISTRI

The Nutramatic 2X automatic food dispenser can be installed in a variety of ways: it can be installed on an aquarium wall, mounted on a stand, or inserted into some aquarium lids. This easy-to-use device includes a moisture barrier to maintain food quality and has a function to adjust the size of portions it dispenses twice a day. This automatic fish feed dispenser allows the use of both flakes and granules.
