

References : EASY10, EASY25, EASY5, EASY50

Excellent chemical resistance. Made of PTFE, borosilicate glass 3.3, polypropylene and FEP. High reproducibility of measurements. Can be mounted directly on GL 45 neck, adapters included for the most common laboratory flasks. Easy cleaning and maintenance. Autoclavable at 121 ° C. Designed to dispense liquids under the following conditions: temperature between -15 and +40 °C (equipment and reagent), vapour pressure up to 500 mBar, density up to 2.2 g / cm³ and viscosity up to 500 mm² / s . Comes without bottle.

NB: Check the resistance to the products you wish to handle.
