Main epicentres in the last 1,000 years

This poster presents, on the map of metropolitan France at 1/2,000,000 and on the map of the French Antilles at 1 / 1,850,000, the geographical location of the main epicentres of earthquakes that have occurred over the last 1,000 years.

These epicentres are associated with tremors felt in mainland France (from 1000 to 2003) and in the West Indies (from 1700 to 2000).
