With its semi-planar objectives, this microscope offers excellent optical quality.

This microscope is equipped with a 360° rotating head and is available in Monocular, Binocular or Trinocular versions.

It can also be fitted with a teacher's head (a straight tube and a tube inclined at 45°), enabling a camera to be connected or two users to observe at the same time.

- Wide-field eyepieces with integrated 10x/18mm eyecups - Diopter adjustment
- Adjustable LED illumination
- 4-seat revolver stage
- 3 objectives Semi-planes 4x, 10x, 40x (60x or 100x objective optional)
- Coaxial micro and macro focusing with tension adjustment
- Valve or carriage stage; stage dimensions (cm): 14 x 13
- Linear adjustable condenser Abbe ON 1.25 Iris diaphragm
- Stable, non-slip foot
- Detachable or cordless power cord (battery-operated)

Binocular, carriage stage

Excellent optical quality, very robust, innovative design

Monocular

Excellent optical quality, very robust, innovative design

Réf : 738870CP

Monocular, cart stage, wireless power supply

Excellent optical quality, very robust, innovative design

Réf : 738870CP-SF

Monocular, fixed condenser, valve stage

Excellent optical quality, very robust, innovative design

Réf : 738860CP

Prof. head, carriage turntable, wireless power supply

Réf : 738870CPDSF

Professor head, carriage turntable

Réf : 738870CPD

Trinocular, turntable with carriage

Excellent optical quality, very robust, innovative design
