

ELECTROMANIPULATION PLATE

Reference : PLATINE

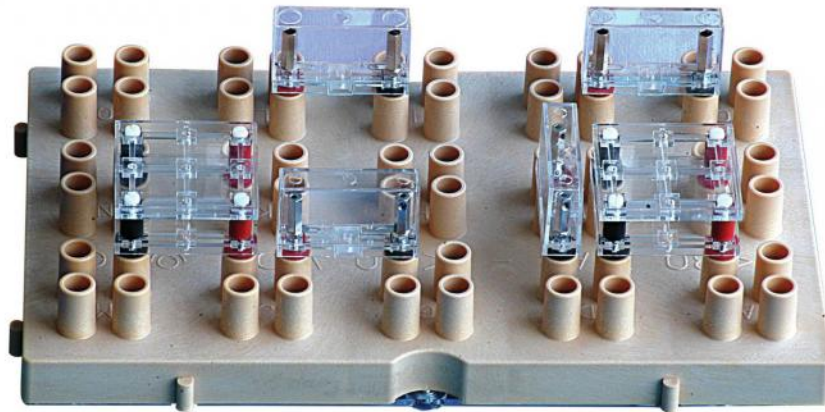

Plate protected because it can connect with Ø 4mm safety cords. It avoids accidental touching in normal use with the component holders.

Of very robust design, this base plate, adjustable in all directions, has the following characteristics:

- 15 poles with a pitch of 38 mm. Each pole consists of a conductor and 4 sockets Ø 4 mm pitch 19 mm with alphabetical marks that allow various mountings.
- Material: polystyrene
- Sockets + conductors: Brass Ni
- Allowable intensity: 20 amperes
- Voltage: 30 Volts AC, 60 Volts DC
- Dimensions : 285 x 171 x 24 mm
- The back of this plate is equipped with a transparent cover which facilitates storage by stacking.
