ELECTRONIC STOPWATCH AND PAIR OF OPTICAL SENSORS

PRODUCT

SHEET

- Optimisation of mechanical experiments with sensors and USB port.
- Ergonomic product: easy reading thanks to the inclination of the screen.
- Nice and compact for storage.
- Stability of the device with the 4 rubber feet.

Digital stopwatch delivered with a pair of photogates for mechanical timing. Technical characteristics of the stopwatch:

- 2 3-digit displays: 1 for seconds and 1 for fractions of seconds
- Resolution: 1 / 1000th of a second
- 2 buttons for starting and stopping the stopwatch manually
- USB port to recover data
- Power supply: 12 V (included)
- Dimensions: 170 x 110 x 50 mm
- Mass: 550 g

Technical characteristics of the photogates:

- H-brackets with clamping screw and optical cell
- Chronometer connection cable with 1500 mm length jack plug
- Dimensions: 100 x 85 x 20 mm
- Mass: 230 g
