

ELMETRON WATERPROOF CONDUCTIVITY METER

Reference : CONDCC411

Conductivity, salinity and temperature measurements
IP66 waterproof case
Large LCD backlit display
Conductivity cell and temperature sensor provided
Technical characteristics:

- Conductivity: 0 to 100 mS / cm \pm 0.25%
- Salinity: 0 to 60 g / L
- Temp. : -50.0 to +199.9 ° C \pm 0.1 ° C
- Temperature compensation: auto or manual, from -5 ° C to + 70 ° C
- Calibration: manual or automatic
- Power supply: 9V battery included or 12V AC adapter (not supplied)
- Automatic extinction
- Dimensions / mass: 149 x 82 x 22 mm / 220 g
- The product comes in a case with battery, conductivity cell, temperature sensor Pt1000
