

ELMETRON WATERPROOF PH METER

Reference : PHCP411

pH meter / millivoltmeter / thermometer mounted in IP66 waterproof case

Large LCD backlit display

pH electrode and temperature probe included

Technical characteristics:

- pH : 0.00 to 14.00 \pm 0.01
- mV: \pm 1999.9 mV \pm 1 mV
- Temp. : -50.0 to +199.9 ° C \pm 0.2 ° C
- Temperature compensation: auto or manual, from -5 ° C to + 110 ° C
- Calibration: manual or auto. from 1 to 3 points (auto detection of pH 4, pH 7 and pH 10 buffers)
- Power supply: 9V battery included or 12V AC adapter (not supplied)
- Turns off automatically
- Dimensions / mass: 149 x 82 x 22 mm / 210 g
- The product comes in a case with battery, pH electrode, temperature sensor Pt1000
