

FENTE DE DIFFRACTION ET ÉCRAN DE RÉFLEXION

Reference : USONADR

Diffraction slot and reflection screen

Held on a board by magnetisation.

The diffraction slot and the reflection screen can magnetically couple for use without a board.

Technical characteristics:

- Slit opening: adjustable from 0 to 50 mm
- Slit height: 120 mm
- Slot support dimensions (H x W x D): 240 x 240 x 50 mm
- Dimensions of reflection screen (L x W x H): 100 x 50 x 40 mm
