Order complete equipment and get a 10% discount. For orders on our website, enter the retail items and enter the discount code FREE10 to apply the discount.

An original and complementary solution of storage and preparation in laboratory, technology room, or general purpose room ...

The distribution is ensured by trolleys receiving holding tray-drawers identical to those which host the shelving and the cabinets.

The trolleys and shelves are made of epoxy-painted steel tube frame, at your choice.

The trolleys and shelves are delivered flat, associated with an assembly manual, with top tray, and wheels (on trolleys only).

They are delivered empty, to be completed with trays and / or shelves (also provide for a pair of runners per tray).

Double column shelving
