

HELMOLTZ COILS AND TUBE HOLDER

Reference : SUPELEC

This pack consists of a stable stand for the attachment of an electron beam tube and a pair of Helmholtz coils.

Technical characteristics:

- Dimensions: 130 x 190 x 250 mm
- Mass: 570 g
- \varnothing coils: 138 mm
- Maximum distance between coils: 150 mm
- Number of turns: 320
- Rated voltage: 12 V
- Rated current: 1 A
- Effective resistance: about 6
- Connection: 4 mm sockets
