

References : EBA200, MIKRO185

These compact centrifuges combine simple use and adaptability by their compatibility with many sample tube makes. They are particularly suitable for education. Thanks to the cover lock, the overheating protection and the robust plastic housing, they enable particularly safe work.

- Closing and opening the lid with one hand at the touch of a button after complete stop
- "pulse" key for short term centrifuging
- Impact-resistant plastic housing and cover, interior of the cover made of metal with overheat protection
