

# HYDROGEN STORAGE BATTERY

PRODUCT SHEET

Reference : LWH22-10L-5

Hydrogen storage, convenient and safe, to power your devices; the latest technology for hydrogen storage fits in the palm of your hand! In HYDROSTIK PRO, rather than being compressed, hydrogen is stored safely and reliably in the form of metal hydride, that is to say bonded with a metal alloy. HYDROSTIK PRO is included in all Horizon Enhancement kits and can be recharged using the HYDROFILL PRO station. It can store the equivalent of 15 L of H<sub>2</sub>.
