

# INFORMATION TRANSMISSION - 50 OHM COAXIAL CABLE

References : COAX100, COAX1, COAX10

1 meter

Coaxial cable offered in different lengths to study the transmission of information:

- Measurement of signal attenuation
- Measurement of the speed of information transmission

Technical characteristics:

- Cable type RG58
- Impedance: 50 Ohms
- Ø ext: 4.95 mm
- BNC connector

**Réf : COAX1**

10 meters

**Réf : COAX10**

100 meters

Coaxial cable offered in different lengths to study the transmission of information:

- Measurement of signal attenuation
- Measurement of the speed of information transmission

Technical characteristics:

- Cable type RG58
- Impedance: 50 Ohms
- Ø ext: 4.95 mm
- BNC connector

**Réf : COAX100**
