

LASER RANGE FINDER

PRODUCT SHEET

Reference : TEELAS

Extremely accurate and fast: laser measurement technology
Precise measurement of length, area and volume
Measures dimensions in meters or feet
Large, detailed LCD screen for easy reading
Convenient Features: Memory, Addition, Subtraction and Continuous Measurement
Low battery indicator
Technical characteristics:
Useful range: 0.2 - 20 m
Measurement precision: ± 3.0 mm
650 nm class II laser
Maximum power
