

MAGNETISED KARYOTYPE KIT

PRODUCT SHEET

Reference : CARY1

Les accidents génétique de la méiose

Using this modelling and a support key, the student can reconstruct a karyotype that he must analyse in order to find a possible anomaly or to identify the sex of the person.

Karyotype of a woman, a man

Karyotype of a woman or a man with Down Syndrome 21

Karyotype of Turner syndrome

karyotype of Karyfelter syndrome

A description of the symptoms of the diseases completes the benefits of carrying out pre-natal karyotypes.

Composition :

- 48 chromosomes and a magnetic Sheet.
- 1 instructions for the reconstitution of the karyotype
- 1 karyotype card
