

MAGNIFYING GLASSES

PRODUCT SHEET

Reference : LOUPLÉD

Illuminating magnifying glass

Illuminated hand magnifier equipped with a 4X magnification lens and 8 white LEDs for better observation in a dark environment + 1 UV LED for fluorescence detection (observation of flowers, detection of counterfeit notes, etc.). Essential for all precision work. Avoids eye fatigue because this magnifier diffuses a natural and pleasant light, like in broad daylight. Length: 22 cm.
