

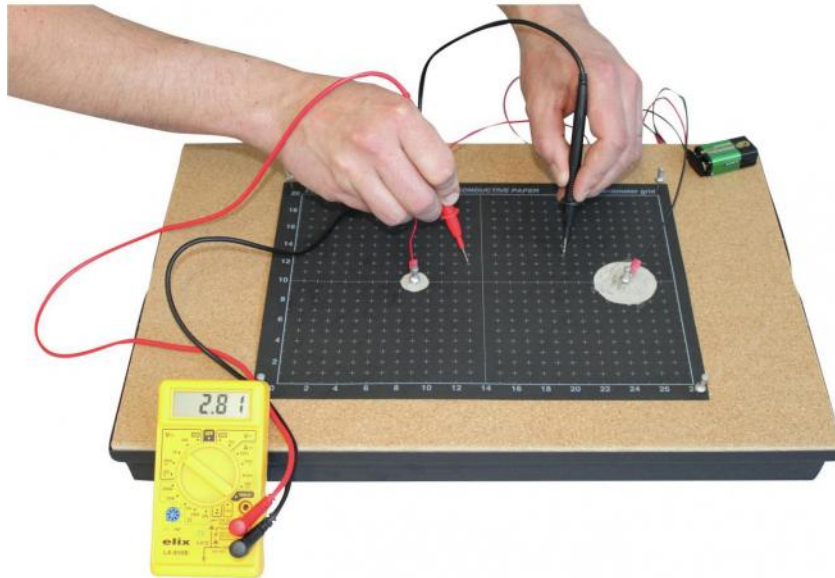

# MAPPING OF AN ELECTRIC FIELD

Reference : PK-9023

- A multitude of possibilities: draw your own electrodes at will!
- Ability to map equipotential lines and field lines
- Easy to use: draw, feed, map!

Composition:

- 1 plastic tray of dimensions 320 x 480 mm with cork plate
- 10 conductor tacks
- 3 cords with lug
- 1 conductive ink pen
- 1 template for circular conductors
- 50 sheets of conductive paper graduated in cm, dimension 230 x 300 mm
