

# METRIX DIGITAL TABLE TOP MULTIMETER

Reference : MX5006

Simple and effective, this multimeter is presented in a compact and lightweight housing. Display with great readability and wide viewing angle. Equipped with conventional functions (voltage, current, resistance, continuity, diode test), the device also has expanded functions: capacity, frequency, period.

Technical characteristics:

- Resolution: 6,000 counts
- Display: LCD with backlight
- Voltage DC, AC and AC + DC TRMS:
  - Ranges: 600 mV to 1000 V- Base DC accuracy: 0.09%
  - Useful bandwidth: 100 kHz
- DC, AC and AC + DC current
  - Ranges: 6,000  $\mu$ A to 10 A
  - Base precision: 0.8% (DC) and 1% (AC and AC + DC)
- Frequency: 60 Hz to 60 kHz
- Resistance: 600 Ohms to 60 MOhms (precision 0.4%)

- Sound continuity test
- Diode test: from 0 to 3 V
- Capacity: 6 nF to 60 mF
- Temperature : -60 to + 1200 ° C
- Safety: 1000 V CAT III
- Dimensions / Mass: 295 x 270 x 95 mm / 1.85 kg
- Comes with power cord, instructions and 2 test leads
