

NEWTON'S TUBE

Reference : NEWTUBE

Vacuum tube to demonstrate that the acceleration and the fall time are identical for all bodies in a vacuum, in the absence of air resistance and vertical thrust.

Clear plexiglass tube with two plugs, one of which has a valve and a vacuum hose connection.

Supplied with three drop bodies of different masses.

Connection manifold: \varnothing 8 x 20 mm

Dimensions: \varnothing 50 mm, length: 1 m
