

OHAUS CENTRIFUGE FOR MICRO-TUBES

Reference : CENTROHAUS

Powerful and practical mini-centrifuge for simple and fast separation applications in the life sciences. Delivered with 2 interchangeable rotors (click type).

It is designed for operator safety and includes a rotor unbalance detection probe and two safety switches that stop the rotors immediately when the lid is opened during use.

Just place your sample in the centrifuge and close the lid. It starts spinning without having to press a single key.

Characteristics:

- Speed: 6000 rpm
- Centrifugal force : 2000 xg
- Switch: 100-240 V
- Dimensions : 15 x 16.8 x 12.8cm, weight 1.1Kg
- Capacity:
 - 8 Eppendorf tubes of 2 / 1.5 mL, with adapters for Eppendorf tubes of 0.2 ml and 0.5 ml
 - 32 tubes of 0.2 mL.
