

PERIODIC CLASSIFICATION OF ELEMENTS

Reference : 1002

Format 100 x 140 cm.

Made of high quality laminated paper, this poster is mounted with two plastic holding rods and two adjustable hooks. For each element, the name, the symbol, the atomic number, the atomic mass as well as the electronic configuration are indicated. The different classes are identified by colours. Its large format (100 x 140cm) allows easy reading by the whole class.
