

PH METER PEN

PRODUCT SHEET

Reference : PHCHECK

Light and compact pH meter tester , ideal for accurate and fast routine measurements. It has a narrow electrode, ideal for test tube measurements. With 2-point calibration, it provides measurements with an accuracy of ± 0.2 pH. The pH electrode with S7 connection is easy to replace.

Range: 0.0 to 14.0 pH

Resolution: 0.1 pH

Precision (at 20 ° C): ± 0.2 pH

PH calibration: Automatic, in 1 or 2 points (pH 4.01, 7.01 and 10.01)

Power supply: 1 CR2032 Li-ion battery / Approx. 1000 hours of continuous use

Dimensions / mass: 50 x 174 x 21 mm / 50 g
