

PH TESTER

PRODUCT SHEET

Reference : PHTEST

This pH tester combines precision and simplicity. It is an ideal and economical tool for the needs of occasional and fast pH measurements. Its robust and ergonomic housing ensures an excellent grip. The large LCD screen facilitates reading from all angles.

After 2-point calibration, it displays measurements with an accuracy of ± 0.1 pH, which is ideal for many applications. The built-in pH electrode in the case has a renewable fabric connection, which will significantly improve the longevity of the tester.

Range: 0.0 to 14.0 pH Resolution: 0.1 pH Precision (at 20°/ 68° C): ± 0.1 pH

pH calibration: Manual in 2 points

Power supply: 4 1.5 V batteries / 1700 hours continuous. Batteries provided

Dimensions: 175 x 41 x 23 mm

Weight: 95 g
