

# PLANTED PIEZOMETER

Reference : MICROPIEZ

Piezometer

**Universal seismology set for schools:**

**2 MICROPIEZ +2 RALPIEZ +1 JACKYWorks with the free Audacity software**

Very practical when it comes to recording waves caused by shock in a soft material (modelling clay). It is thus possible to study the influence of temperature on the propagation of seismic waves.

Requires micro stereo inputs and 1 stereo card input.

Characteristics: Jack

- Sensor diameter: 8mm  
Length of the sensor: 32 mm
