Optical glass lenses for the most demanding applications: high magnification, annoying flare ... These lenses have a tolerance on the focal length of 2% instead of 10% as is usual. Individually packaged, they will be perfect for a final assembly on a stand.

Biconcav lenses Ø 40 mm

**Tolerance 2%**

**Réf : UA2080 - UA2090 -**

Biconcave lenses Ø 40 mm

**Tolerance 2%**

**Réf : UA2100 - UA2110 - UA2115 - UA2120 - UA2130 - UA2135 -**

Biconvex lenses Ø 40 mm
