

# PRECISION STUDENT SPECTROSCOPE

Reference : U19500

This spectroscope, of high optical quality, makes it possible to observe the spectra of rays that are the most difficult to observe.

It consists of a tube of 115 mm x Ø 25 mm with a thin slot at its ends 0.2 mm in width and a grating of 600 mm.lines / mm.

Robust in design, it is particularly suitable for use by students. Supplied with rigid protective case.
