

REFRACTION REFLECTION SET

PRODUCT SHEET

Reference : ENSRR

This complete set allows the study of reflection and refraction without an optical bench. It is composed of a sheet metal support on which is fixed a 230 mm diameter graduated disc, a 200 mm diameter hemi-cylindrical tank and lens, and a plane mirror mounted on a magnetic support. The set can be used in horizontal or vertical position: Ø 10mm rod included, to be completed by an optical stand.
