

# REGULATED HEATING MANTLE

References : CBARN250, CBA250, CBARN500, CBA500

Balloon heaters of different capacities, with analog or digital temperature adjustment.

analog adjustment: the temperature is adjusted with a potentiometer.

Digital adjustment: The set temperature is set with two buttons and an external temperature sensor (supplied) controls the temperature.

Technical characteristics:

- Thermo-resistant plastic housing
- Power and heat indicators
- Maximum surface temperature: 450°C
- Power supply: 230 V - 50 Hz

Reference	Regulation	Capacity	Power	Magnetic stirring	Dimensions
CBA250	Analog	250 mL	150 W	No	Ø 220 x 165 mm
CBA500	Analog	500 mL	250 W	No	Ø 220 x 165 mm
CBARN250	Digital	250 mL	150 W	No	Ø 220 x 165 mm
CBARN500	Digital	500 mL	250 W	No	Ø 220 x 165 mm
