**Free Sparkvue App on Appstore and Googleplay  
Simple**

**The promise  
of no longer  
needing complete**

**instructions**

**Analysis, modelling, numerous displays, reports.**

**innovative**

**Geolocation of measurements  
on maps, data sharing  
on multiple media**

Some examples of the potentialities of the software:

- Multiple graphs simultaneously or multiple curves on the same graph
- Several types of displays simultaneously (graph, multimeter, digital ...)
- Analyses and modifications (coordinates, modelling, slope, statistics, scales, note, zoom ...)

- Modification of measurement frequencies
- Direct display of data
- Data sharing
- SPARKVUE integrates a complete range of turnkey PWs.

Compatibility:  
Smartphone:

- Android 6 or +
- iPhone 4 S or +  
Tablet:

- Android 6 or +
- iPad 3 or +
- iPad Mini

- Windows 7 or higher with USB4.0 adapter  
PC:

- Windows 7 or higher
- All recent models
- Windows tablet

Institution license

**Compatibility: Windows 7 and + Mac**  
**Sparkvue vous donne la possibilité de partager une expérience en temps réel avec l'ensemble de la classe.**
