

References : SPECNAECO, SPECHGECO, SPECHEECO

Brighter than the "spectral tube" solution and more economical than an "OSRAM" solution, this range makes it possible to carry out the main spectral analysis experiments at lower cost. Must be used with the power supply for spectral lamps ref. SPECALIM.

Technical characteristics:

- Power supply: 230V/50Hz
- Socket: E27
- Dimensions (Ø x H) : 28 x 150 mm

Helium
