

STAGES OF FERTILISATION AND DEVELOPMENT

Reference : L01

Model magnified twice.

This model illustrates the different stages of fertilization and then development from the ovocyte to the embryo.

The different stages are shown thanks to this model with a cross section of the uterus, the fallopian tube and the ovary.

For a better understanding, magnifications of the different stages of development of the oocyte are printed on the base.

Dimensions: 35 x 21 x 20 cm; Weight: 1.2 kg
