

STAINLESS STEEL TANK WATER BATH

Reference : TBN20

Metal housing, stainless steel tank.
Adjustable temperature up to 110° C.
Stability $\pm 1\%$.

analog regulation by dilatation thermostat.

The resistor is made of stainless steel and is in direct contact with the liquid to optimise the bath performance.

General switch with indicator light.

Thermostat hydraulic temperature controller, synchronised with indicator bulb.

To be completed with a resistance Sheet and possibly with racks presented below.

Reference	Capacity	Net (H x L x D cm)	Exterior (H x L x D cm)	Consumption	Weight Kg
TBN20	20 L	15 x 48 x 30	23 x 54 x 34	1600 W	8
