

STROBE LIGHT

Reference : STROB

Its characteristics and its digital display make it an ideal tool for the measurement or control of rotating equipment (motors, centrifuges, pumps, etc.) as well as for the demonstration of the stroboscopic effect.

Technical characteristics:

- Digital display: 4 digit LED, height 8 mm
- Range of use: 100 to 10000 flashes / min
- Change of scale: automatic
- Precision: ± 1 digit (100 to 5,000 flashes / min or rpm)
- $\pm 0.05\%$ (above 5,000 flashes / min or rpm)
- Resolution: 1FPM / RPM
