

# STUART MAGNETIC STIRRER 15 L

Reference : AGIT15L-2

Powerful magnets for a strong stirring force.

The power of the magnets and motor makes it possible to reach a stirring speed of 2000 rpm and handle a volume of up to 15 litres. The compact shape takes up less space on the bench and makes storage easier.

This model has a robust stainless steel tray and, unlike aluminium, does not produce eddy currents. It thus ensures high power coupling and stirring.

The model is equipped with an integral fitting for retort rod and is supplied complete with 2 25 mm magnetic bars coated with PTFE. The shape of the bottom makes it possible to slip a retort base there if it is necessary to save more space on the bench.

Technical characteristics:

- Plate dimensions: 150 x 150 mm
- stirring speed 100 to 2000 rpm
- Max. stirring capacity: 15L
- Dimensions (W x D x H): 172 x 248 x 109 mm
- Net weight: 2 kg
- Power supply: 230 V, 50 Hz, 50 W
- Protection index: IP 32
