

STUDY OF FORCES TABLE

Reference : TABLEFORCE

High precision

This table of forces allows the study of a system subjected to several forces, the representation of vectors and the calculation of their norms.

Easy to use and very precise, this table is the ideal tool for studying static.

Included:

- Table (Ø 40 cm) mounted on 3 feet
- 4 adjustable pulleys
- 4 sets of slotted masses with stand
- Metal ring (placed at the centre of the table)
- Spool of thread
