

SUPPORT DE FOURCHE OPTIQUE NUMÉRIQUE

Reference : SUPBEESPI

Digital photogate stand

Metal stand consisting of a clamp mounted on a rod. The fixed jaws of the clamp make it possible to hold one side of the digital photogate effectively. The rod allows the bracket to be attached to any stand using a simple clamping nut, as well as adjusting the inclination of the photogate.

Technical characteristics:

- Total length: About 200 mm
- Rod: Ø 8 mm
