

THERMOMÈTRE PRÉCIS ÉLECTRONIQUE

Reference : THERMO3

Electronic precision thermometer

Compact and precise these thermometers make it possible to quickly take temperature measurements in all conditions (laboratory or field).

The probe can be attached or detached

Thermometer with remote probe in stainless steel.

Length of wire: 45 cm.

Length of the probe: 100mm.

Comes with a battery.

Measuring range: from -50 to 300° C.

Resolution: 0.1° C.

Precision: 1 °C

Reference	THERMO3
Measurement range	From -50 to 300 °C
Precision	1°C
Resolution	0.1°C
Display	30 x 30 mm
Probe	Stainless steel 100 mm separated probe / Wire 0.45 m
Power supply	Battery 1,5V SR44

Dimensions	80 x 45 x 15 mm
Mass	50 g
