

WIRELESS PRESSURE SENSOR

Reference : PS-3203

Free application for smartphone and tablet

No more interface required

USB wireless

Internal memory

With the wireless pressure sensor you can make accurate and consistent measurements of the pressure of a gas, regardless of ambient conditions, and understand how chemical reactions affect gas pressure.

Supplied with: 70 cm of polyurethane plastic hose, connectors, syringe, USB cable, rechargeable lithium-polymer battery.

Characteristics:

- Range: 0 -400 kPa
- Resolution: 0.1 kPa
- Precision: ± 1 kPa
- Bluetooth: BT 4.0
