

WIRELESS VOLTAGE SENSOR

Reference : PS-3211

No interface
Wireless or USB
100 kHz in USB

Voltage measurements up to 15 volts.

Technical characteristics:

- Measurement range: ± 15 V
- Precision : $\pm 0.5\%$
- Sampling frequency:
-Up to 1000 Hz in Bluetooth-Up to 100 kHz in USB
- Protection up to 250 V
- Input impedance > 1 MOhm
- Battery: rechargeable lithium polymer, battery life of about 3 months
- Connection: USB cable or Bluetooth 4.0
